Subject: Mid - America Steel Drum

Hi Dakota,

I am the new south Milwaukee air compliance inspector. I wanted to let you know that the stack test company had contacted me regarding this EPA test. I have informed them that EPA is the lead authority

in this case, but see that they have only copied you on this most recent email notification. I am not familiar with this facility and have never been there. The stack test plan indicates an alternative sampling location that does not meet the protocol. If you accept the test plan, could you please copy me on your reply?

Thank you,

Michael Griffin

Environmental Engineer
